SOW'S – PIGLETS

APPROVED & MANAGEMENT MARKING

» 97% Retention Rate » Full rotation 360° Around of the Trouble

» Ministry Approved & Management Pig Identification.

» Long Term Materials.

Goliath Rigidtag™ Sows Marking

Install the **Goliath™** with the definitive Sow I.D in young gilts ~6 months between 1st & 2nd heat period in sets (2 ears). With this way, your sows will carry their official mark for ever, without the need for additional marking when moving them to slaughter.

In bigger age sows, ensure maximum possible immobility (mating day) and select a point with soft tissue.

The definitive Sow I.D consists of the CHR number of sows farming & the sow Serial number.

Jumbo™ & Goliath™ Applicator

Caisley

Jumbo Rigidtag™ Piglets Marking

The **Jumbo Rigidtag™** ear tag It fully meets the needs of official fattening & replacement piglets (gilts & boars) marking and is ideal in cases where a medium size tag is required.

Despite its smaller size compared to the **Goliath™**, the print elements remain just as visible and sharp from a long distance.

The **Jumbo™** print consists of the animal's birth farm number on the male side and on the female side from the Serial Number for Gilts – Boars.

*''**Jumbo™** application period* – piglets age over 15 days old''

** Temporarily and due to technical delays in the production of **Dls® Rigidtag** Applicators, the install of the **Jumbo™** & **Goliath™** will be supported by **Caisley** applicators.*

***Rigidtag™** = 100% nylon ear tags with excellent resistance to wear and tear from the animal environment and ultraviolet radiation.*

SHEEP – GOAT

APPROVED & MANAGEMENT MARKING

» 97% Retention Rate » Full rotation 360° Around of the Trouble

» Ministry Approved & Management Sheep & Goat Identification.

» Long Term Materials.

Goliath Rigidtag™

The **Goliath™** in adult sheep and goats is used in a set of 2 ears, 1 Visual & 1 EID. Due to its size and its readable printing it ensures the visibility from large distances, without immobilizing an animal or washing the ear tags. Its print contains information of approved marking but can also be used as management ear tag (see print options).

CATTLE

MANAGEMENT MARKING

» 97% Retention Rate » Full rotation 360° Around of the Trouble

» Management Cattle Identification.

Goliath Rigidtag™

Place the **Goliath™** on newborn calves or adult cattle as an additional marker (management) which you can combine information from the animal's approved I.D. with genetics, ownership, etc. either through printing or through color coding.
Due to its size and its readable printing it ensures the visibility from large distances, without immobilizing an animal or washing the ear tags.

Jumbo™ & Goliath™ Applicator

Jumbo Rigidtag™

Place the **Jumbo™** on newborn calves or adult cattle as an additional marker (management) and in cases where visibility from long distances is not required. The medium size of **Jumbo™** its ideal to printing a wealth of information and complex printing options and color coding for management marking.
